Completion:	2026

UNIVERSITY OF EDINBURGH

Project Overview

The objective was to create a vibrant, modern environment where students could study, relax and enjoy their meals in comfort. Working closely with the University's Interior Designer as well as **Casala, Sedus** and **Frovi** who supplied furniture that matched the approved specification and complemented the overall vision for the space. Installation was carried out efficiently and delivered an impressive result, while strict measures were put in place to ensure the safety of both students and staff throughout deliveries and on-site work. Coordination with Heather Davie ensured the area was prepared and ready for each stage of the project. Minor delays in furniture deliveries were resolved without impacting the installation programme, demonstrating a responsive, solutions-focused approach that kept the project running smoothly and to schedule.

"Great experience from start to finish"

"Personal and friendly approach, always on hand to answer questions or propose alternative products."

"Pain free and seamless, everything arrived on time and any issues were resolved as quickly as possible with no inconvenience to the client"
